

How to do a Municipal Search / permit search for a property

Search from home/office:

Go to Town of Trumbull website- www.trumbull-ct.gov , Town Hall, [Building Dept](#)

In the upper right hand corner click the link [Municipal Search](#)

Scroll down the page to choose a category

Select the letter the street starts with

Find the street name- click on it

The permit street cards will populate with addresses and permits taken out by **date issued not by address.**

We only have permits in office from **1971** to Present. Anything else is just information on the card.

Look under the column for house number. Find the house number you are looking for and follow it across to see the permit number and description of work done

Write down any permit number(s) you would like to have information on and include any letter after the number – i.e. 1234D and submit the number(s) along with the address via the buildinginfo@trumbull-ct.gov

We will respond to your email with the status of the permit- whether it is closed out and Certificate of Occupancy has been issued. We will include any recent permit information (anything after 12/2013 forward and mechanical permits from 2007 to present) that may not be on the cards.

We can leave the permits out for 1 week if you need to come down and make copies of the permits and any CO's.
