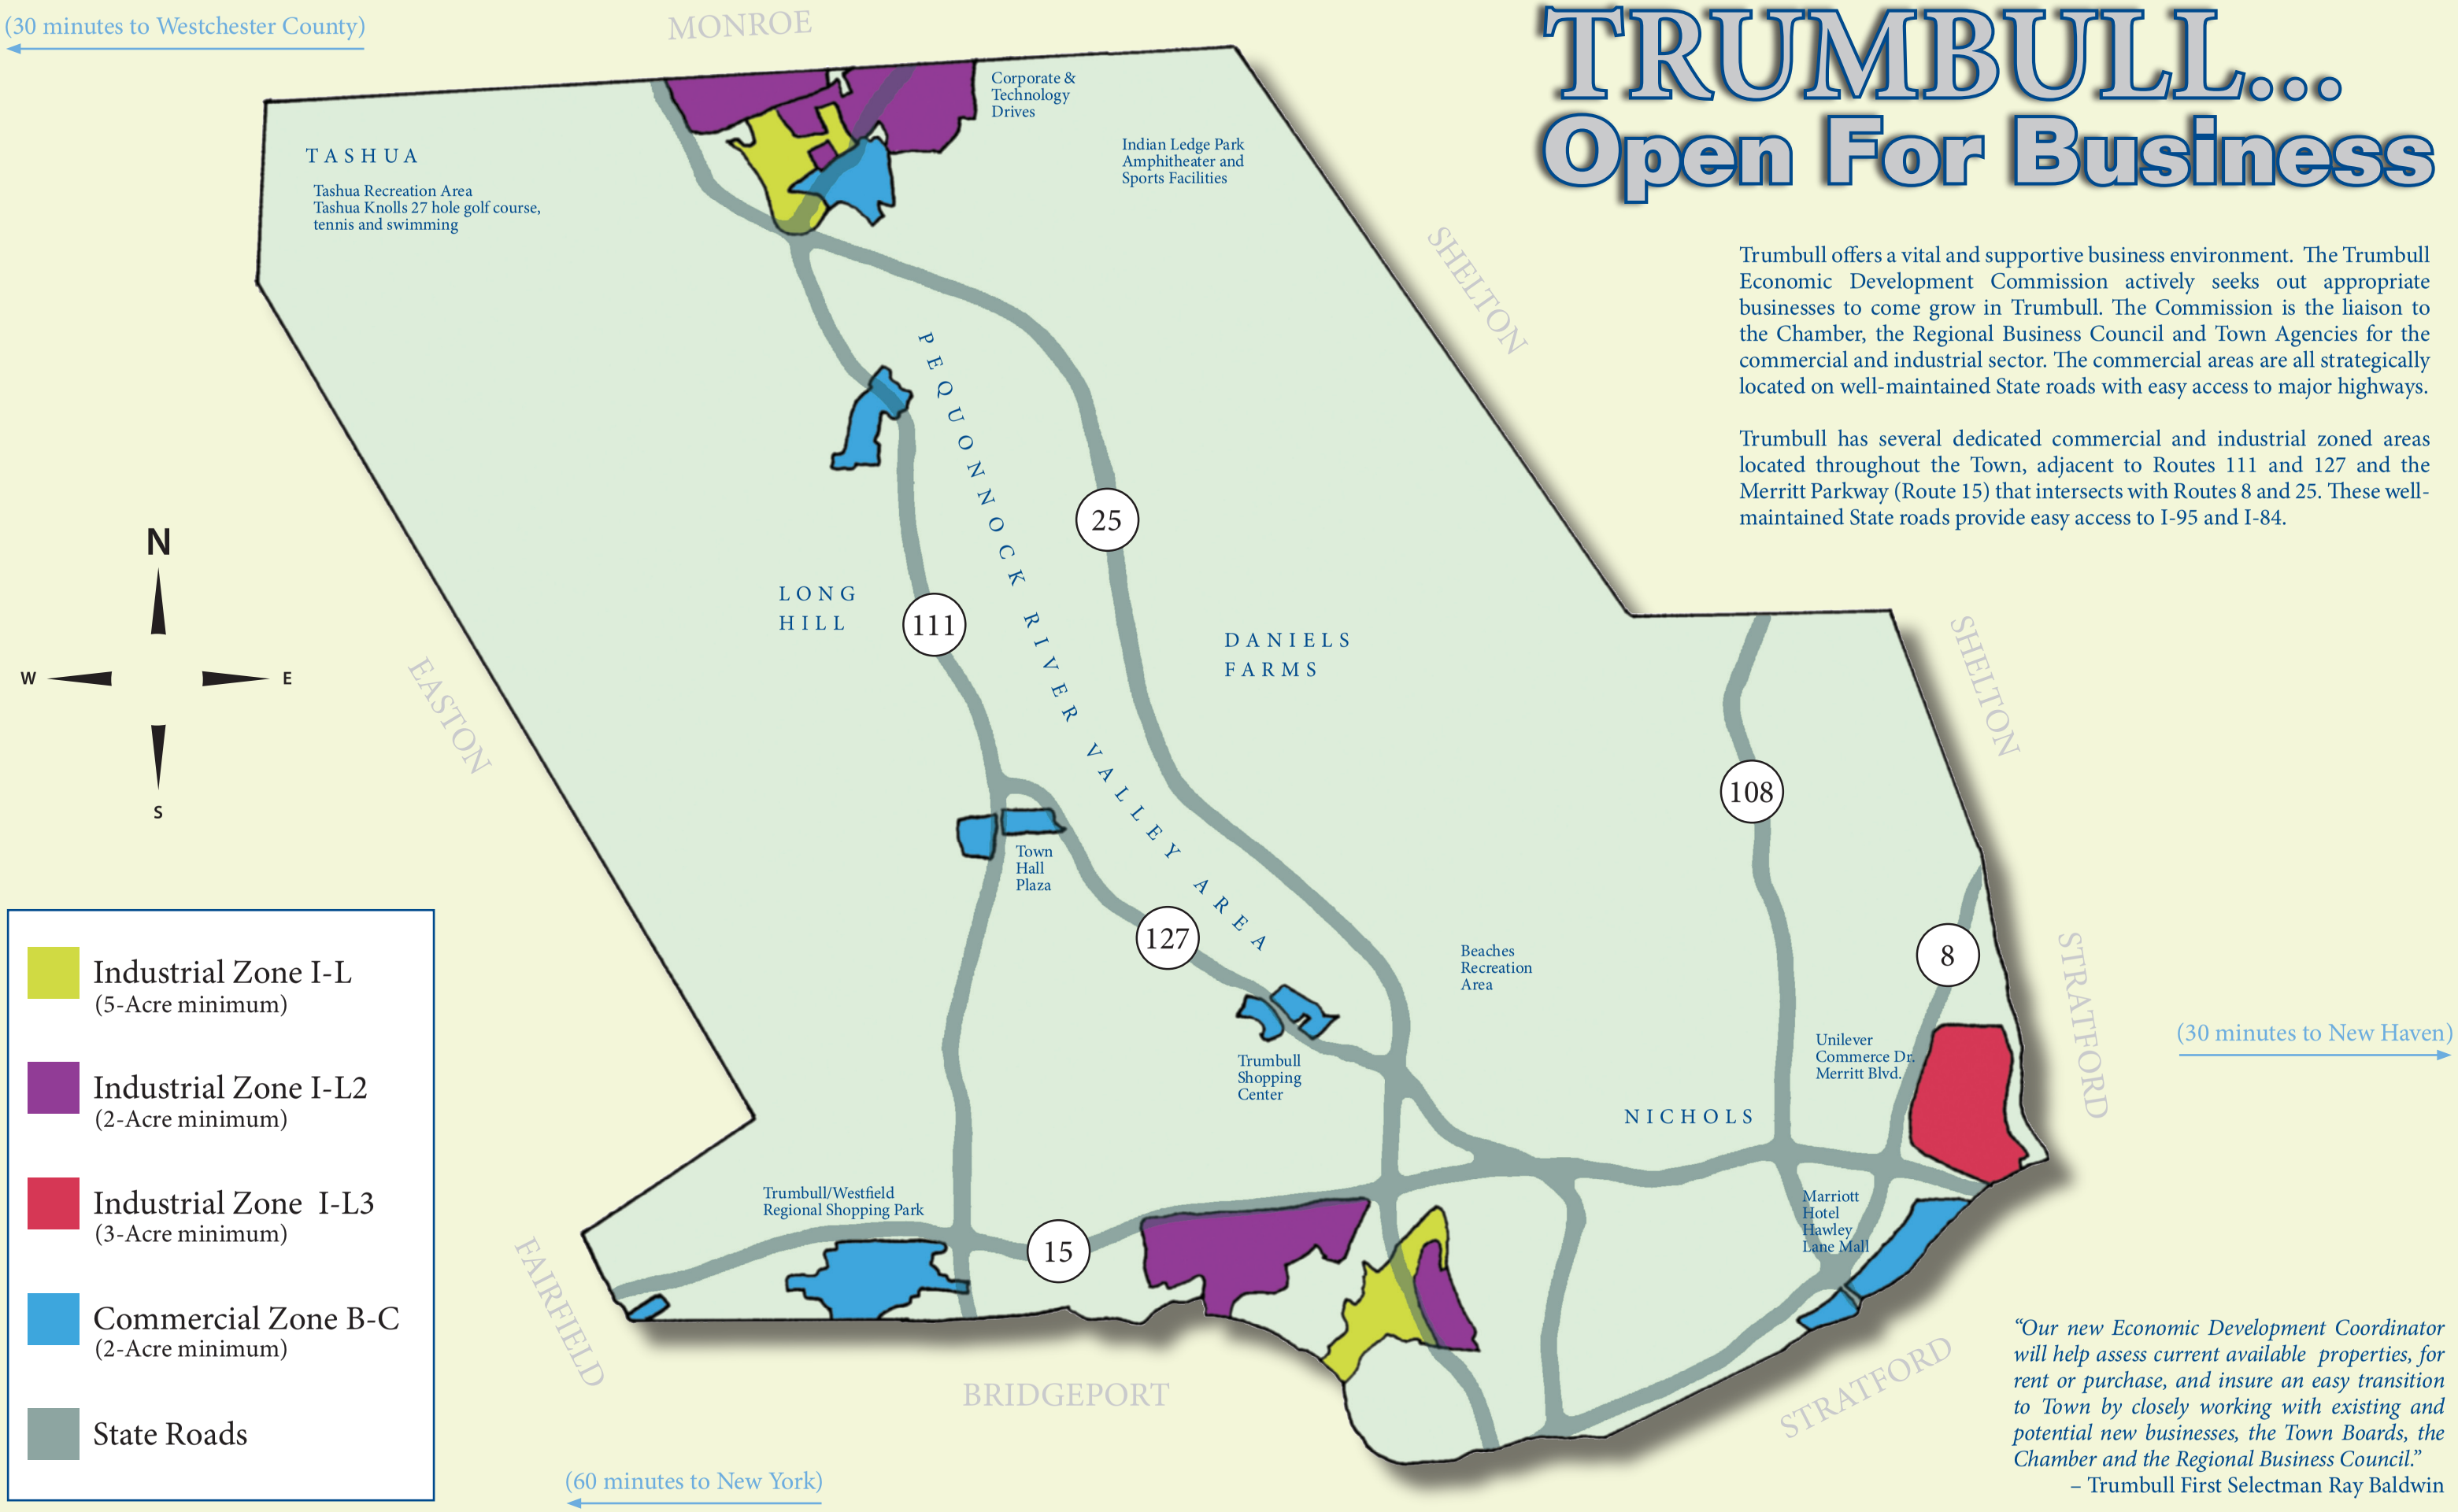
TRUMBULL...
Open For Business

Trumbull offers a vital and supportive business environment. The Trumbull Economic Development Commission actively seeks out appropriate businesses to come grow in Trumbull. The Commission is the liaison to the Chamber, the Regional Business Council and Town Agencies for the commercial and industrial sector. The commercial areas are all strategically located on well-maintained State roads with easy access to major highways.

Trumbull has several dedicated commercial and industrial zoned areas located throughout the Town, adjacent to Routes 111 and 127 and the Merritt Parkway (Route 15) that intersects with Routes 8 and 25. These well-maintained State roads provide easy access to I-95 and I-84.



"Our new Economic Development Coordinator will help assess current available properties, for rent or purchase, and insure an easy transition to Town by closely working with existing and potential new businesses, the Town Boards, the Chamber and the Regional Business Council."

– Trumbull First Selectman Ray Baldwin
