VOTE: Motion to approve the November 4, 2010 meeting minutes as amended carried unanimously 16-0.

Moved by Mr. Pia, seconded by Mr. Ciocci to approve the November 22, 2010 special meeting minutes as submitted.

VOTE: Motion carried unanimously 16-0.

The Chair congratulated the Trumbull High School football team and the Saint Joseph's High School Cadets; both teams will be playing in the state championships.

DISCUSSION ITEM:

Trumbull High School Building Committee:

Chairman's Report: Mr. Nugent reported that the project is progressing nicely; it is on time and on budget, the project continues to maintain a surplus of funds. The auditorium has been completed and is operational at this time. The concession stand construction process can begin as soon as the council approves the design. Mr. Nugent will bring the exact surplus fund number to the next meeting.

Mr. Barbarotta reported that the auditorium seats' end caps and arm rests will be replaced over the December vacation; the flashing on the smoke latches has been repaired they are down to one that still needs to be repaired; sound system training is complete. The project is 34% complete; \$17 million of the budget has been spent to date.

Construction Manager's Report: Brian Holmes of O&G Construction reviewed the phasing plan with the council. The administrative area will be handed over during the February vacation this change in schedule is due to the glass delivery; the change will not impact the schedule at all. When the three classrooms behind the cafeteria are complete they will be able to move out of the temporary space and allow C-House to move into the space. The field, bleachers and B-House will be completed next summer; B-House will be worked on during the summer months due to the science classrooms. A-House and M-Wing will be completed the summer after. There are two very hectic summers ahead of them. The library will be worked on in the last summer, the summer of 2012.

Architect's Report: Mr. Greg Smoley reported that they are working towards LEED certification; currently the project is looking very favorable towards attaining LEED Silver. In order to achieve the site LEED points they had to undertake a Phase 2 site assessment; there had been some contamination found in Phase 1 around the old oil tank; the Phase 2 assessment has not found any contamination to date. The acoustical engineer is working with the LEED consultant at this time.

Concession Stand: Mr. Smolley reported that the building committee has endorsed option #5-to construct new field toilets, construct a new concession stand, to renovate the existing concession stand and to relocate the ticket sales area. Mr. Smolley reviewed options #1, 2 & 3 briefly with the Town Council. The current estimate for option #5 is an increase of \$492,713; the total cost estimate is \$691,213 (the project is carrying some of the cost already in the budget); it is an increase to the project not a total cost. The kitchen

equipment is \$53,000; the more complex budget break downs of each of the options could be forwarded. The state reimbursement is estimated at the full reimbursement rate at approximately at 30% (if site work is not duplicated). There is the possibility that the estimates may come in less after they are bid. Mr. Holmes explained that by moving the building creates an additional savings \$50,000 by not having to move the sewer line. The bidding climate is still favorable, the estimates had been adjusted to the bidding climate, there could be an additional 5% saved after the project is bid. Mr. Smolley indicated that the project would have to go to BSF for review; if the Town Council considers the design at the February 20110 meeting that would eliminate a summer construction, if the design was considered at the January meeting that would allow time to go to BSF and for summer construction. Mr. Smolley suggested that the Town Council turn over the design to the building committee.

The Chair stated that the council's consensus of which design had not been determined; at the last meeting the design had been discussed the council was looking at a \$250,000 cost estimate. Mr. Nugent stated that the football field is going to have new seating and in general the whole football area will appear new; the whole school is going to be renovated after all is done would it be favorable to have the old look alongside the like-new-renovation or would be better to spend some additional money to have the whole area looking new for the next 25-40 years. The Chair clarified that it was his understanding that the renovation of the concession stand and the building of new toilets would not have the look of a 35 year old building. Mr. Nugent stated that would be option #4 on this chart. Mr. Rotondo stated that only options #4 & #5 would give the new look that all want for this portion of the project. Mr. Smolley agreed; noting that option #5 gives you all of the activity of the football field in one location. Option #4 leaves the ticket booth where it is; both options would qualify for reimbursement.

Mr. Ciocci recommended sending this discussion to the Education Committee based on the fact that the council is receiving a lot of new information and numbers at this meeting. Mr. Meisner noted that by moving the ticket booth and making this a first class facility the building committee believes additional revenue could be generated from special events.

Mr. Barbarotta stated that the facility is used for football, lacrosse, soccer, track, and band. Mr. Smolley noted that the kitchens and bathrooms are the most expensive portion of any project; this project has 10 bathroom fixtures and a full commercial kitchen, the water line, sewer line and the electrical is not owned by the town, which affects the cost. The building as it stands is not code compliant, it needs to made code compliant or abandoned.

Ms. Thornton questioned whether it would be more advantageous for the town to consolidate the buildings; Mr. Smolley noted the town would be building two building instead of three. Mr. Smolley indicated that the BSF only meets on Mondays and Tuesdays for plan review; when setting an appointment there is a 6 week lead time. There is no date set until Town Council approves the design. The basic plan is roughed out and could be present a design at the January 6, 2011 meeting. This is the only design that would need to be reviewed.

The council reviewed option #4 & #5; Mr. Smolley agreed that items could be removed after the design is presented to the council. Mr. Smolley explained that work on the

concession stand has been on-going; there had been a vote at the last building committee to send option #5 and the other options to the council for review. Mr. Nugent stated the earlier estimates were as high as \$1.5 million, the building committee has continually directed the design team to go back to reduce the plan; there has been multiple revisions to the plans. Option #5 is the final recommendation by the building committee. Mr. Altieri reviewed the earlier renderings; the design fee is \$50,000; approximately half the design costs had been taken at risk by the design team. Mr. Smolley agreed. Mr. Rappa clarified that the additional funding after reimbursement would be approximately \$310,000.

Mr. Smolley noted that the site work is scheduled to begin in June 2011, in order not to duplicate the site work the following timeline (working backwards would be his recommendation): Bidding in May, a 60-day review starting in February, Town Council approval of the design in January 2011. The only difficulty is that we are now in the holiday time which inheritably brings a timing issue.

Mr. Rotondo moved to consider approval of the \$50,000 for design fees. The Chair noted that the Town Council does not have a resolution on this agenda to approve a specific plan or design fee at this meeting. The Town Council understands the timetable and the necessity to move quickly. Mr. Smolley stated that building committee will endeavor on better communication with the Town Council so that this does not happen again. The Chair noted that an Education Committee meeting will be scheduled between the week of Christmas and the January Town Council meeting.

1. RESOLUTION TC23-116: Moved by Ms. Deyoe, seconded by Mr. London

The Legislation & Administration Committee met on November 29, 2010 and voted unanimously 5-0 to recommend to the Town Council.

The public hearing was opened at 9:14 p.m.

There was one person to speak to this resolution. (See Attached)

The public hearing was closed at 9:17 p.m.

Mr. Nelson stated that the RPA and our town government are in favor of this resolution. Two other municipalities have approved similar resolutions, the RPA wants more input from the municipal CEO's. First Selectman Herbst is in favor of this resolution. This will allow for more of a voice and say on how money would be allocated to the region. Ms. Testani spoke to the resolution as being a restructuring, not an additional layer being added. Mr. Nelson agreed.

VOTE: RESOLUTION TC23-118 Adopted 13-3(Against: Pescatore, Thornton and Altieri)

4. RESOLUTION TC23-119: Moved by Mr. Rappa, seconded by Ms. Testani.

BE IT RESOLVED, that First Selectman Timothy M. Herbst, is hereby authorized to sign and execute all agreements, contracts, and any additional documentation required, on behalf of the Town of Trumbull with the Department of Transportation of the State of Connecticut,

The Legislation & Administration Committee met on November 29, 2010 and voted 4-1 (Against: Ciocci) to recommend to the Town Council.

Moved by Ms. Thornton, seconded by Mr. London to strike the word “all” from the first line of the resolution, the resolution to read as, “BE IT RESOLVED, that First Selectman Timothy M. Herbst, is hereby authorized to sign and execute agreements, contracts, and any additional documentation required, on behalf of the Town of Trumbull with the Department of Transportation of the State of Connecticut,

BE IT FURTHER RESOLVED, that First Selectman Herbst is authorized to sign and execute a grant agreement with the State of Connecticut for purchase of wheelchair-accessible motor vehicles for transportation services to meet the needs of elderly and/or disabled persons under Section 5310 of the Federal Transit Act, as amended, 49 U.S.C 5310.

Mr. Nelson spoke in favor of removing the word “all”.

Mr. Ciocci spoke against removing the word “all”, there may be multiple documents to this grant, and may inhibit the First Selectman. Mr. London disagreed due to the fact the words following all are plural. Legal Counsel is not present due to medical reasons. The Chair stated that the First Selectman would not be signing the grant without Town Council approval, the state would not issue the grant funding without the approval of the Town Council documentation.

VOTE: Motion to amend carried 9-6-1 (Against: Evangelista, Testani, Ciocci, Lamberti, Scinto and Deyoe) (Abstention: Mark).
