

**TOWN OF TRUMBULL, CONNECTICUT
REQUEST FOR PROPOSAL (RFP)**

**GLOBAL POSITIONING SATELLITE (GPS)
FOR USE IN TOWN PUBLIC WORKS VEHICLES**

RFP # 5915 DUE: NOVEMBER 17, 2011 at 3:00 PM

ADENDUM #1

The following changes are issued to the bid instructions:

1. The following changes to the **GPS FEATURE AND FUNCTION REQUIREMENTS FOR TRUMBULL PUBLIC WORKS** are as follows:

Line item 13 shall now read:

13) User-customizable dashboard interface to present the GPS/AVL map of vehicle locations as well as alerts (speeding, idling, geo-zone entry/exit, etc.), graphs, vehicle location lists, reports, etc. Users should be able to save their custom dashboard views for re-use as needed.

Line item 26 shall now read:

26) The in-vehicle GPS device must be designed to be installed and operate within public works vehicles that are used during both extreme low temperature winters (can go below 0° F) and the extreme hot summers (can go above 95° F). ~~The~~

2. Line item 5 of the **BIDDERS QUALIFICATION STATEMENT** is deleted:

~~5. Furnish on Schedule C, attached, details of the construction experience of the principal individuals of your organization directly involved in construction operations.~~
