Subject: Special Appropriation for Environmental Survey – 19 Hardy Lane, 16 Hardy Lane, and 26 Hardy Lane

Dear Board of Finance,

I am requesting the Board's support for a funding authorization, not to exceed $30,000, to conduct pre-demolition environmental surveys for three uninhabited Town-owned residential structures located at 19 Hardy Lane, 16 Hardy Lane, and 26 Hardy Lane.

These properties have been vacant for an extended period and, due to their secluded location, continue to pose significant challenges for security and public safety. The Police Department reports ongoing incidents requiring intervention at these sites and is strongly advocating for a final determination by the Town—either to repair and preserve the structures or proceed with demolition. A comprehensive environmental assessment is a necessary first step to enable the Town to make an informed and timely decision.

Based on the cost proposal provided by Accurate Insulation, the estimated cost for a full pre-demolition environmental survey—including asbestos, lead, universal wastes, chemical and oil inventories, and all required sampling—is approximately $8,500 per property.

Attached for reference is the Eagle Environmental, Inc. – Rate Sheet for 2026. Eagle Environmental is a prequalified service provider for the Town, and their current rates support the reasonableness of the estimated project cost.

Completion of these surveys will allow the First Selectman and the Town Council to make fully informed decisions regarding the future of these properties.

Given the public safety concerns, repeated police activity, and the need for clear guidance on next steps, I respectfully request that the Board of Finance allocate funds to complete these surveys for all three Hardy Lane properties.

Please let me know if additional information is needed.

George Estrada
Director of Public Works
