Parks and Recreation Commission
Ranger Division February 1 2021 Report

Commissioners,

This report is a summary of the Ranger Division activities for the month of February 2021. During this month the Rangers Division patrolled and continued to make appearances in parks and other properties that are outside of main patrol. Rangers continued to pick up litter and provide daily monitoring and maintenance of trash receptacles. Litter issues at the Great Oak Parking Lot continue, rangers are checking this lot daily and are reporting bottles, fast food bags and other items left from previous nights. As always, rangers are removing the litter. Rangers continue as a main function patrol main parks and respond to calls for service. The activity in the parks and the Rails 2 Trails decreased due to several winter storms and snow. There still continues to be skating activity at Unity park and the removal of NO SKATING signs remain an issue. Rangers are replacing these signs as soon as they are discovered missing. There has been evidence of possible skating activity at Twin Brooks and Katz Pond, small areas seemed to be shoveled off. Rangers have been instructed to monitor these areas. Because of recent snow storms, activity at the Indian Ledge sledding hill increased. Several vehicles at the hill did not have parking stickers. The Rangers addressed the issue by verbal education and issuance of written warnings.

There were 16 written reports in February and 14 written warnings that were issued for a variety of Rules and incidents such as Prohibited Parking, Dogs off Leash, Closure of Parks, Damage to Park Property, Motor Vehicle Accidents and Conduct and Behavior. There were 39 parking violations issued, all but 1 were issued for not having a Trumbull Park Sticker, the other was for prohibited parking.

There were no permitted events in the parks for the month.

.Respectfully Submitted
Steven Chapman
Chief Park Ranger
