Notes:

1. In the boundary descriptions above, the dividing lines between districts run down the middle of the named streets and watercourses. So, for example, when a District 5 boundary is described in part as "Northerly: Fairview Avenue ..." the middle of Fairview Avenue is the dividing line, and all the houses south of that north boundary are in the district, and all of the houses north of that line are in another district, in this case District 4.

2. The terms “northerly,” “easterly,” “southerly,” and “westerly” are approximate. For example, a street that is part of a northerly boundary may run east-west, northeast-southwest, southeast-northwest, etc.
