VOTE: Motion CARRIED by unanimous consent.

Kevin Dion gave an overview of this year's BOE request.

- The average age of each building is 55 years old. Most of the requests are upgrades needed. There is a lot of ADA, safety and a focus on climate environmental as well as immediate needs, asphalt & concrete projects, drainage problems, some FFE (furniture, fixtures and equipment), as well as air conditioning.
- BOE did a study on the elevators. The company that does their preventative maintenance did the walk-through.

The Chair explained the committee would review the request section by section.

Points of discussion and requests are as follows:

- The elevator repair listed is a replacement which is why the cost is high.
- Recent work done at the following schools: Jane Ryan got all new asphalt concrete sidewalk work, Booth Hill and Middlebrook got new roofs a couple years ago. There are ebb and flow to the projects. They have the district master plan. The original five-year capital that was approved by the town council in December includes items for all those schools, which were pushed out into further years due to the cost and some other more immediate needs.
- When they do these capital projects, they look at some of the most pressing.
- The a/c work are mini-split units, they don't require ductwork and have a lifespan of 15-20 years. They are less costly. They chose buildings that can handle the electrical draw and will not be asking for an electrical upgrade.
- The FFE requested is for cafeteria tables which have lasted more than twenty years.

Requests:

- Pull and deliver preventive maintenance costs and repair amounts for school elevators for the last year and provide the data before Monday's meeting.
- Provide maintenance records and vendor information for school fire panels for the past 10 years (maintenance logs and contractors).
- Check and report whether the chillers were replaced during the prior 'renovation as new' project and provide supporting documentation or history.
- Provide chiller refurbishment vs. replacement details including expected lifespan after refurbishment, warranty scope, and any available quotes.
- THS parking lot extension will have drainage under the asphalt. Bill Maurer shared his screen showing the plan. The clerk will send the high-school parking/drainage plan and visuals to council after this meeting

2. RESOLUTION TC31-25: Moved by Broderick, seconded by Wolf  
RESOLUTION APPROPRIATING \$14,620,000 FOR THE TRUMBULL (TOWN)  
CAPITAL IMPROVEMENT PLAN 2026-2027 AND AUTHORIZING THE  
ISSUANCE OF \$14,620,000 BONDS OF THE TOWN TO MEET SAID  
APPROPRIATION AND PENDING THE ISSUANCE THEREOF THE MAKING OF  
TEMPORARY BORROWINGS FOR SUCH PURPOSE (Full Resolution Attached)

The Chair explained the committee would review the request section by section.  
Points of discussion and requests are as follows:

#### Senior Center

- George Estrada explained when they presented the five-year capital plan in December, they had broken out a maintenance and renovation plan for the existing facility. As they consolidated the one-year funding, the discussion was it would be more effective if there were two plans. One was the renovation of the existing facility. The other one is continuing to explore options for the sites that the town currently controls. \$225,000 for a facilities modernization plan for the existing facility, or the \$275,000 that they are proposing. They shifted everything in the plan out one year and left only one line, the \$275,000, which would allow the council to decide. It dovetails into the conversation earlier at the Public Works Committee meeting allowing the council to have discussion and then provide some direction as to whether we pursue a renovation of the existing facility, a renovation-as-new, or to look at other locations such as Hardy Lane, as well as Main Street. It's bringing all of that into a study that the council then would have better details to be able to arrive at a decision that would provide direction moving forward. That survey would inform what should be explored.

#### Garage Siding

- It may be more economical to do as a comprehensive plan, but it would be a substantial amount of money.

#### Animal Shelter

- One of the fire districts provided a used backup generator that they are trying to integrate into the animal shelter. The existing one that they have is old and wants to proactively try to have a reliable power backup source. This funding may not be needed. The one they are trying to integrate into the building does not work and will have to purchase a new one.

#### Parks

##### Twin Brooks Drainage

- The plan is to replace the existing irrigation system.

#### Historical Society

- This is for the building that houses the Historical Association in Nichols. The original house, the center house, is 250-300 years old. Over the years, there were appendages to that house. One of those today is separated from the main structure. It was caused by some sort of structural failure, probably in the foundation. The

money being requested is to bring in an engineer and architect, that are familiar with historic preservation type renovations to assess and provide a plan of how to stabilize and correct it.

#### Snowplow Manufactures and Purchasing Inquiry

- It was explained the town buys off the state bid, which offers the most competitive prices and long-term bids for consistent fleet management. The state bid is the most cost-effective option for purchasing snowplows.

#### Parks Truck Replacement

- The current Parks truck is in poor condition and explained the new truck's capabilities for year-round use, including snow removal and maintenance work.
- The new truck's ability to maneuver in smaller spaces and handle big storms with a high lift plow was highlighted.

#### Other Projects

- Assistant Chief Byrnes explained the importance of the bi-directional amplifier radio (BDA) for radio communication in the two buildings. The unit in the high school has failed, limiting communication inside the building.

#### Requests

- Provide photos and documentation showing the current condition of the parks truck targeted for replacement (to share with council prior to next meeting).

#### Future Discussion

- Discuss playscape (ADA play area) options with Dimitri Paris and bring alternative lower-cost locations or design options for future council discussion.

#### Financial Requests

- Compile and deliver the town appropriations spent from July 1 to present and report how much of last year's bonding authorization has been spent to date.

VOTE: CARRIED 5-1 (AGAINST: Scinto)

ADJOURNMENT: There being no further business to discuss the Finance Committee adjourned at 8:58 p.m. by unanimous consent.
