Town of Trumbull

CONNECTICUT

TOWN HALL
(203) 452-5048

5866 MAIN STREET
TRUMBULL, CT 06611

MINUTES FEBRUARY 26, 2020

Call to Order: The Chair called the meeting to order at 7:01 p.m.

Present: Chairman Richard Boggs, Charles Berezin, Andrew Palo, Jon Greene, Frank Regnery, Scott Thornton, Alternate

Also

Present: William C. Maurer, P.E., L.S., Town Engineer/Sewer Administrator, Director of Public Works George Estrada, Town Attorney James Nugent and Christine Kurtz of Wright Pierce

Approval of Minutes: Moved by Palo, seconded by Regnery to approve the January 22, 2020 meeting minutes as submitted. VOTE: Motion CARRIED unanimously.

By unanimous consent the WPCA took item #4, Old Business - 11 Rexview Circle Sewer Connection as the next item of business.

Old Business:

11 Rexview Circle Sewer Connection

Mr. Arthur Iacurci owner #9 & #11 Rexview Circle was present and indicated the easement paper work was all set and has the map that shows what they're going to do.

Mr. Maurer explained he reviewed the easement papers and was satisfied. Attorney Nugent confirmed. A map check would need to be done before the map is filed. Mr. Iacurci lives at #9 Rexview and is building a house at #11 Rexview. The sewer lateral goes through the property at #11 Rexview Circle. An easement to the proposed #11 Rexview Circle is necessary. This will have a shared responsibility for the connections. The manhole will be in the Town right-of-way.

Moved by Berezin, seconded by Rengery to approve the 11 Rexview Circle sewer connection as described, (see attached plan). VOTE: Motion CARRIED unanimously

Attorney Nugent stated Mr. Iacurci would need to bring the mylar to the Engineering for review. Mr. Maurer added once checked he would need to bring it to the Town Clerk to be filed.

New Business:

- Public Hearing: The Chair read the following Public Hearing Notice into the record:

**TRUMBULL WPCA PUBLIC HEARING
2020 ASSESSMENT TRUMBULL, CONNECTICUT
February 26, 2020**

The Trumbull Water Pollution Control Authority will hold a Public Hearing, on Wednesday, February 26, 2020 at 7:00 p.m. in the Trumbull Public Works Administrative Building, 366 Church Hill Road, Trumbull, Connecticut in accordance with the provisions of an Ordinance of the Town entitled, "Sewer Ordinance of the Town of Trumbull" adopted by the Town Council of the Town of Trumbull effective July 1, 1969 and Section 7-249 and Section 7-249A of the Connecticut General Statutes, Revision of 1958 as amended. Notice is hereby given that a Sewer Assessment is proposed to be levied by the Town of Trumbull on the following property:

<u>NAME</u>	<u>LOCATION</u>	<u>NUMBER</u>	<u>MAP</u>	<u>PARCEL</u>
Indian Road, LLC (Or current owner)	Madison Avenue	4680	C-07	00059

Dated this 14th day of February 2020 Trumbull Water Pollution Control Authority

The Chair OPENED the Public Hearing at 7:07 p.m.
There was no one present from the public to speak.
The Chair CLOSED the Public Hearing at 7:08 p.m.

The Chair indicated the Commission was considering an assessment that is in accordance with the appropriate regulations. It was confirmed a new house is currently being built on a lot between 2 houses on Madison Avenue near Christ the King Church. The assessment is based on the original project cost for houses in the area. The commissioners were distributed a copy of the letter to the property owner outlining the assessment and how it was calculated, (see attached). The houses are still within their assessment period. If they were beyond the assessment period this would be developer installed unit charge instead. This was always a lot. Lots are not assessed until they are developed.

Moved by Palo, seconded by Greene to approve the 4680 Madison Avenue assessment.
VOTE: Motion CARRIED unanimously

Eddie Road Extension – (2300 Reservoir Avenue)

As part of the commission's prior approval of the sewer connection at the 2300 Reservoir Avenue development was that an easement would be done so the Town could connect Eddie Road. It would be an advantage to have the contractor do the work now so in the future they wouldn't have to go back through private property and disturb the landscaping on private property after the development is finished.

The Reservoir Avenue upgrade is approximately \$99,500 and the price for doing the work is \$95,750, the difference isn't a lot. The contractor would do the work now on the Reservoir Avenue property for the future Eddie Road sewer extension. It was confirmed the WPCA would incur an additional cost at this time. The Reservoir Avenue pump station is being upgraded, cost wise it's beneficial for us to do this now because flow is being added and the developer is paying a fee for that pump station.

There are people on Eddie Road that are having septic issues. Approximately 23-27 houses in the area need to be connected. The area had been considered part of Contract 5 but has since been taken out of the project. It's a standalone area now, one of the reasons was because they would have to go through this property.

There are 200 apartments being built on Reservoir Avenue. Part of the approval for the 2300 Reservoir Avenue connection was they would pay for a portion of the upgrade to the pump station, a connection fee and fix the pipe on Reservoir Avenue because it will be under capacity. The Reservoir Avenue pump station upgrade is in the design phase, and will go out to bid later this spring. The cost to upgrade the pipe, (\$99,500) and the cost of Eddie Road, (\$95,750) are approximately the same.

They can connect the apartments but there will be capacity issues, not all will come on-line at once. By the time the 200th comes online the pump station will be upgraded. If approved this would be part of the design and bid package. There is money in the budget for the pump station, the development paid approximately \$90,000 towards the upgrade and will still pay the developer installed unit fee of \$2,500 per apartment, (less the units already being charged to the property). The portion going to Reservoir Avenue would be the town's, the rest of the main throughout the complex would be the developer's.

The Commission discussed the need to amend the original July 2018 "2300 Reservoir Avenue" approval. The Reservoir Avenue pipe is going from an 8" pipe to 10". The pump station upgrade was bonded. By unanimous consent the Commission TABLED this item to next month. The Town Attorney stated if there is an existing motion and approval it could be amended.

2020 Fiscal Year WPCA Budget

Mr. Maurer reviewed in detail the attached 2020 FY WPCA Budget line by line with the commission.

501105/Salaries-Overtime - There was a decrease in salaries-overtime due to one of the employees is now on salary and is exempt from overtime.

Mr. Maurer explained that the budget didn't change much from last year, most of the numbers were carried over into this budget.

522204/Services-Contractual - The second page shows what is projected to be paid to Bridgeport WPCA based on the .04 % reduction of Bridgeport's \$5.95 rate and a potential rate increase estimated at 3%. A total of \$6,596,696 is the projected payment to Bridgeport.

Wherever a .00 is seen in the budget the number will be calculated and inputted by the Finance Department.

567701/Transportation-Gas – There are three regular trucks and a Vacall. Mileage stays about the same year-to-year. When they fuel up the key records how many gallons. It went down because they have better energy efficient vehicles.

578801/Maintnce-Sv – Has gone down due to the upgrades to the stations and pumps.

578805/Extraordinary Item – Has been reduced by \$10,000 from last year's budget due to the pump stations renovations. YTD expended is \$12,328.95

5818888/Capital Outlay – Mr. Maurer indicated \$400,000 would need to be added to this account for the "Beardsley Force Main Condition Assessment". He recommends this after last month's rupture that occurred in Bridgeport in Beardsley Park. The rupture occurred the day after last month's regular WPCA meeting. The bottom of the pipe split, (as shown in the attached pictures). The department was notified at 10 a.m. and were very fortunate the contractor working on the upgrade of the Beardsley pump station was able to mobilize right away and had a section of 20" pipe on hand. He did have to go to his competition for the fittings. These are not shelf items. They were able to get back into service by 10 p.m. the same day. It was overflowing from the pump station. The line had to be drained, it's a 9,300' force main.

Mr. Maurer confirmed that they might get a tap on the shoulder for this. Since this was discovered it appears there is more of the problem, but don't know how much more. This was a low section of pipe that didn't have much pitch. The break was in the park, the break was 10' long at an 8' depth. There was no doubt it was sewage. The real problem is there is probably more. After they cut and cleaned the section another foot of pipe fell apart. The line needs to be inspected from one end to the other.

Mr. Maurer explained they are proposing what is called a "pipe-diver" which is pushed into the pipe at a rate of 2' per second and measurements are taken from there the assessment is done. The repairs should be done in phases and budget it over the course of five years. This is a sole source provider. Pure Technologies can do it while the pipe is filled while the other company needs the pipe emptied. Ms. Kurtz noted there is a sense of urgency to this. A "smart ball" assess it will only tell you if there is a leak. As part of this they will do the "smart ball" in addition to the "pipe diver". It will determine the thickness, what percentage is left, and photos.

Ms. Kurtz explained this technology comes from the gas industry. We will get a map, a 3-d Touraine model with high and low spots as well as thicknesses. The "smart ball" is less expensive. Mr. Estrada explained the "smart ball" will let us know what needs to be addressed in the short term. The "pipe diver" allows to plan long range, be able to phase this over multiple years. The pipe diver wouldn't be something that would have to be repeated in five years.

Mr. Maurer indicated the usual life of the pipe depends on the surface conditions, the flow going into it and other conditions. He believes this was caused by the settlement of the pumps being turned off and when they were turned on the sediment created a groove along the bottom. Ms. Kurtz stated this is the flattest section. Mr. Maurer stated the other flat sections are fairly long, this section is 1,000'. The Chair stated it's unlikely this is the only section. Mr. Maurer explained there is a certain thickness that should have been when it was new and the assessment will tell how worn it is by percentage, (i.e. 70% worn) and from there we will have to address anything that is worn at a certain percentage. This is the first time we have known this happened. The Chair appreciates the value of the data in terms of planning.

The price is \$307,085.76 but excavation has to be added, as well as creating a fitting for insertion. There are other costs involved, which is why the amount is \$400,000.

Mr. Rengery questioned page 4 of 11 of the Pure proposal. Mr. Maurer explained they will dig down and test one area of the pipe to validate the assessment's findings. Attorney Nugent questioned whether the "smart ball" should be done earlier. Mr. Maurer stated he isn't sure how quick this could be scheduled. The same make ready work has to be done. Mr. Estrada indicated the bulk of this is the mobilization is \$85,000, the economy of scale is the mobilization and to get both of them done at that time.

Mr. Maurer explained the \$400,000, if approved, would be added to the 581888 Capital Outlay account. After the upgrade of the pump station they will not run the pumps over 6,500 gallons per minute, the best they ever did was 4,000 gallons per minute. There are no reserves so they are pumping with temporary pumps constantly without shutting down at all.

Atty. Nugent noted new projects in Town are coming online. Mr. Maurer explained the new projects are happening at a slower pace, not all at once.

The cost of the pipes will be approximately \$3 million per mile, which is why we will need to phase this and budget for it. Ms. Kurtz added the Commission should plan on 10 miles. Mr. Estrada explained that Mr. Maurer is doing his due diligence to bring accurate numbers to the Commission. The report will give you how much and what timeframe you will have to address it.

Budget Review continued:

All of the utility account numbers are inputted by the Finance Department.

522204/ Services-Contractual: Mr. Greene stated there was a 3% increase for the potential rate increase by the Bridgeport WPCA and the discount is 1% less therefore that explained why there was only an overall 1% increase for this line item.

501101- Salaries-Full Time: The sewage pump station operator increase was due to the employee holding a license that entitled him per contract to the increase. The crew leader resigned and the position has been reduced to a pump station operator at the first step. The Del & Def Tax Clerk position is a fulltime position shared with the Tax Collector's office, which is why it's a .50 position in the WPCA budget. There is an open position for an engineer and pump station operator.

52220/ Svs-Prof: The legal represents the internal Town attorneys that attend and represent the WPCA.

Moved by Boggs, seconded by Berezin to amend by adding \$400,000 to account number – 201000000-581888/Capital Outlay- Beardsley Force Main Condition Assessment. VOTE: Motion CARRIED unanimously

VOTE: Moved by Palo, seconded by Rengery to approve the FY 2020-2021 budget as amended unanimously

Quarterly Budget Report – The Commission reviewed the quarterly Year-to-Date Budget.

410010 - The one time projects are part of the assessments taken in.

430000 - The \$47,500 is a portion of the 2300 Reservoir Avenue's project payment.

440022 - The \$4 million number represents the user fees collected.

480002 - Misc. represent revenue taken day-to-day at the office for sewer permits and other misc. items, (i.e. copies of sewer as-builts).

501103 - Seasonal Salarie - Represents the intern who will be starting soon.

The overtime budget is in good shape only having used 12% to date, because the Assistant Sewer Administrator has gone to salary and is exempt of overtime and comp time, and the pump stations are running better.

522210 - Reimbursable to the Town

Old Business Continued:

Beardsley Pump Station Rehabilitation Update – The minutes from the previous update meeting were included in the commissioners' meeting packet. The station is basically done, they are working on some of the electrical and have the bathrooms to do. They are looking to be on target for completion at the end of March, some of the paving may take into April.

Old Town and Reservoir Avenue Pump Stations Update – The design is being wrapped up and expects to go out to bid later this spring.

Alternative Discharge – Moved by Greene, seconded by Palo to ENTER into Executive Session to discuss pending negotiations with the neighboring communities. VOTE: Motion CARRIED unanimously

The WPCA entered into Executive Session at 8:29 p.m. with the following people present: WPCA members Richard Boggs, Charles Berezin, Andrew Palo, Jon Greene, Frank Regnery, Scott Thornton, William C. Maurer, Director of Public Works George Estrada, Town Attorney James Nugent and Christine Kurtz of Wright Pierce

Moved by Berezin, seconded by Boggs to END Executive Session.

VOTE: Motion CARRIED unanimously. The WPCA ended Executive Session at 8:57 p.m.

The Chair noted that no vote was taken during executive session.

Any Other Business That May Come Before the Authority – None

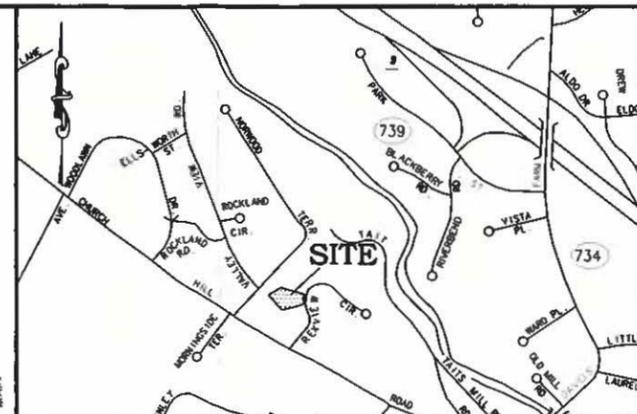

Adjournment: There being no further business to discuss and upon motion made by Palo, seconded by Rengery the Trumbull WPAC adjourned by unanimous consent at 8:59 p.m.

Respectfully Submitted,

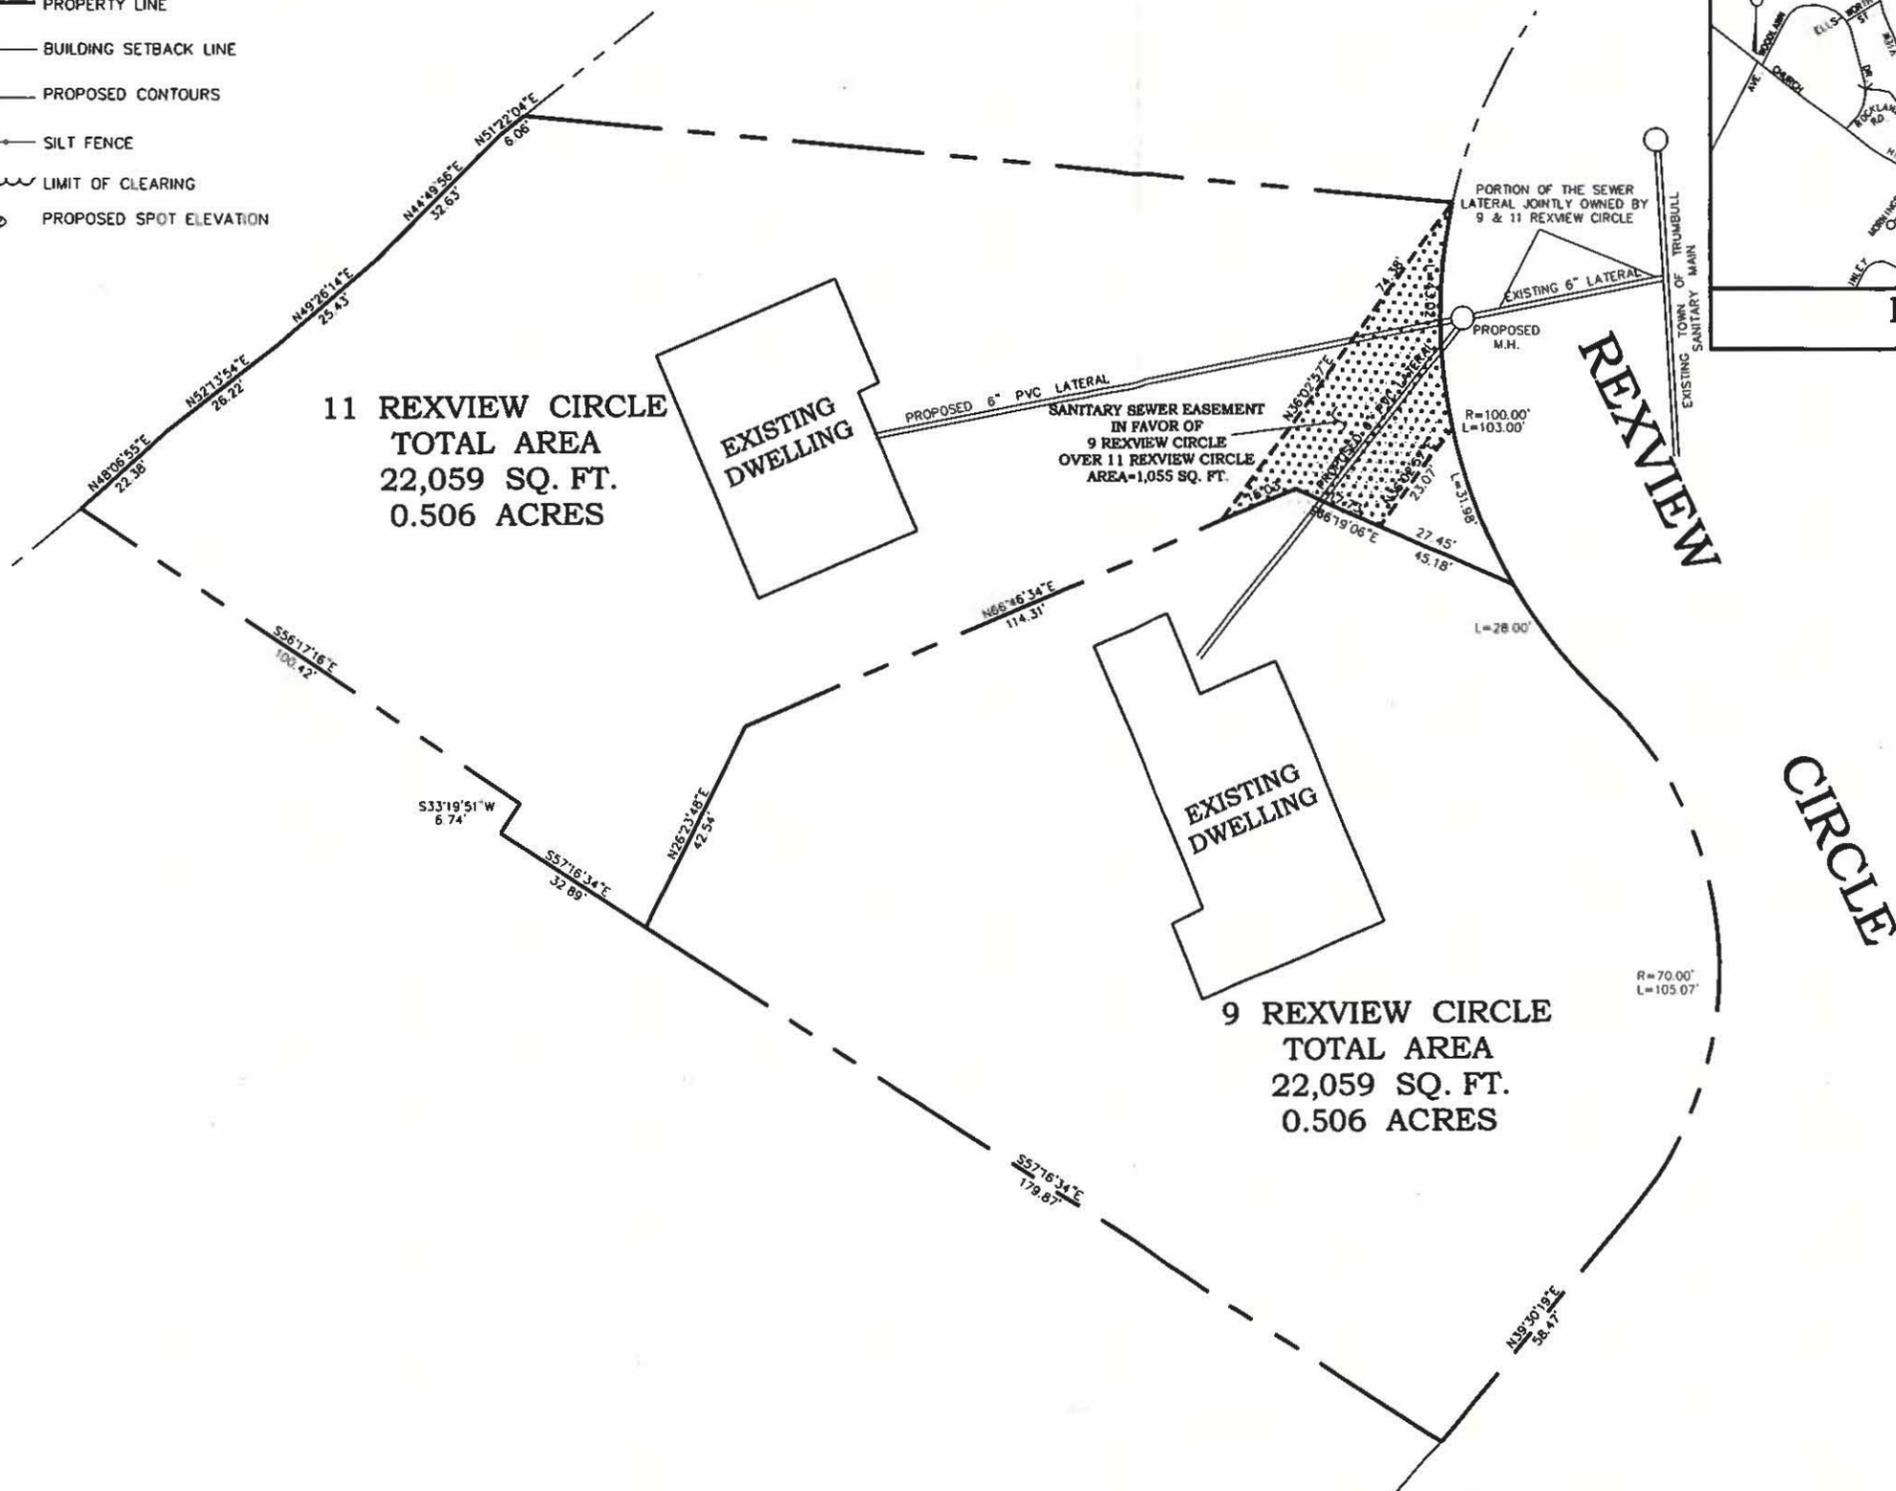

Margaret D. Mastroni, Clerk

TOWN HALL
(203) 452-5048

5866 MAIN STREET
TRUMBULL, CT 06611

February 13, 2020

Indian Road, LLC
34 Brewster Place
Trumbull, CT 06611

THIS IS A NOTICE OF THE PROPOSED SEWER ASSESSMENT FOR 4680 MADISON AVENUE
THIS IS NOT A BILL

Dear Property Owner,

This is a notice of the proposed Sewer Assessment in the amount of \$16,170.50 for your property at 4680 Madison Avenue, Trumbull, CT 06611.

A Public Hearing will be held on February 26, 2020 at 7:00 p.m. at the Trumbull Public Works Administrative Building, 366 Church Hill Road, Trumbull, Connecticut to consider your proposed sewer assessment. You will have the opportunity to be heard about your proposed sewer assessment at the public hearing.

Residential property assessment is determined based on the following 3 items:

1. A flat fee of \$500 per lot; plus
2. A charge of \$104.47 per linear foot of assessed road frontage. You shall be charged for your actual road frontage, subject to the minimum and a maximum footages referred to below in order to adjust for lot sizes. Corner lots will be assessed for only one side of frontage, which shall be the side bordered by the sewer line - or the shorter side if both sides are bordered by the sewer line.

3. LOT SIZE	LIMITS		FEET
Up to .499 acre	Min.	80'	Max. 125'
From .500 to .999 acre		125'	150'
From 1.00 acre		150'	175'

Therefore, your assessment is:

1 Unit	@\$500.00 =	\$500.00
150' Front Feet Minimum & 1.23 Acre	@\$104.47=	\$15,670.50
FOR A TOTAL ASSESSMENT OF:		\$16,170.50

Upon the WPCA's final approval of the assessment you have the option of paying for specific assessment as shown above in one of three (3) following ways.

- 1) Payment in full within 30 days of first billing **OR**
- 2) Make an initial payment of \$500, plus 18 Annual Payments of the remaining principal balance at a bonded interest rate of 4.0%, **OR**
- 3) Make an initial payment of \$500, plus 18 Annual Payments at a bonded interest rate of 4.0% paid in equal quarterly installments.

Activities, Functions and Responsibilities

The WPCA, consisting of five members appointed by the First Selectman, has the power, by statute, to acquire, construct, and operate a sewerage system for the Town; make rules and regulations for the operation of the system; and, enter into contracts for the System.

The Sewer Operations account reflects the cost of maintaining the Town’s existing sewer lines and meeting the proportional cost of treatment of the Town’s effluent by the City of Bridgeport.

This is an Enterprise Fund and is self-sustaining; and, therefore, it has no bearing on the tax rate. WPCA customer base is approximately 10,300 sewer users.

Responsibilities:

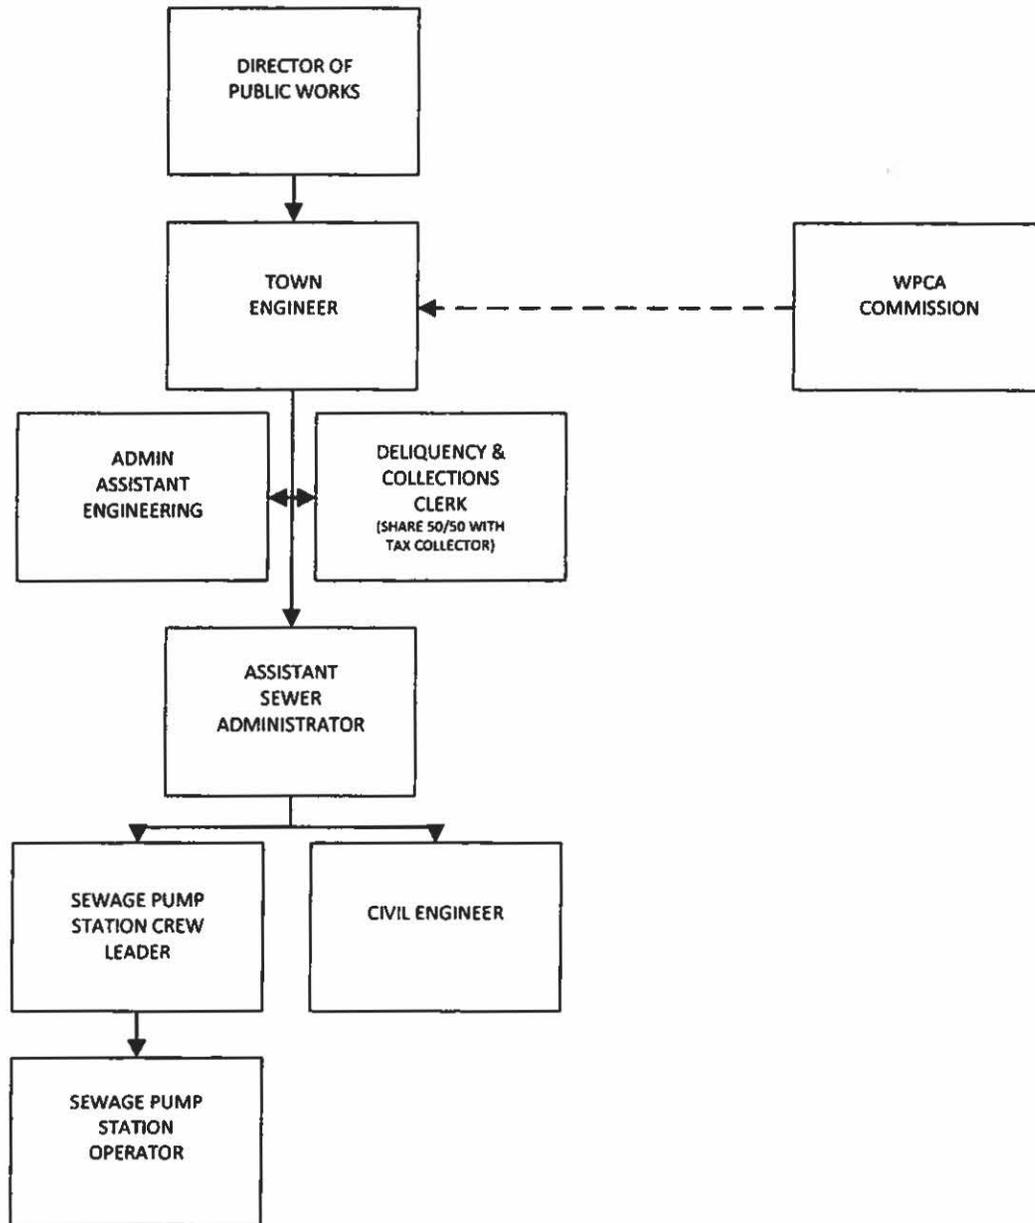

- Manage the operations of 13 Pump Stations and approximately 123 miles of sewer mains.

**Successes & Accomplishments
2019/20**

- Continue to evaluate alternate disposal options for WPCA waste water. (On-going)
- Continue to monitor existing sewer lines for groundwater infiltration and existing storm water flow (On-going).
- Continue Beardsley Pump Station Rehabilitation.
- Begin design of Reservoir Ave Pump Station
- Begin design of Old Town Road Pump Station.
- Begin design of potential Beardsley Parkway Area Sewer System.
- Continue to record improvements of Sewer main on GIS data base to provide real time as-build information in the field.
- Continue sewer lateral permit inspections.
- Continue to monitor Fats, Oil and Grease Program (On-going).

**Goals & Objectives
2020/21**

- Continue to evaluate alternate disposal options for WPCA waste water. (On-going)
- Continue to monitor existing sewer lines for groundwater infiltration and existing storm water flow (On-going).
- Reconstruction of Reservoir Ave Pump Station
- Reconstruction of Old Town Road Pump Station.
- Begin design of potential Beardsley Parkway Area Sewer System
- Continue to record improvements of Sewer main on GIS data base to provide real time as-build information in the field.
- Continue sewer lateral permit inspections.
- Continue to monitor Fats, Oil and Grease Program (On-going).

PROJECTION: 20211 2020-21 BUDGET

FOR PERIOD 99

SEWER		2019 REVISED BUD	2020 REVISED BUD	2021 DEPT REQ	2021 FIRST SEL	2021 BD OF FIN	2021 TOWN CNCL
20100000	590012 UTIL-ELECT	190,956.00	168,363.00	.00	.00	.00	.00
Budget estimates are based on current year annualized usage compared to prior year actual usage. The budget is calculated as estimated usage x generation rate (Constellation) + estimated usage x UI avg distribution rate. 8% was added to the estimated distribution cost at 7/1 and 1/1 to account for potential PURA approved delivery rate increases (UI sets and applies any rate increases at six month intervals). Current generation rate through June 2022 from Constellation is .07900 per kwh.							
20100000	590013 UTIL-WATER	2,350.00	2,459.00	.00	.00	.00	.00
Annualized FY19 actual expense plus 8% for potential rate/usage increases.							
20100000	590014 UTIL-PHONE	1,525.00	1,616.00	.00	.00	.00	.00
On a town wide level this budget includes charges for Verizon wireless. Frontier charges have been eliminated as the town is now on a VoIP telephone system that is included in the IT budget. All service costs were annualized for FY19 and compared to prior year budget and actual costs. In addition, the Town's technology department continually monitors cell plans for usage and potential rate savings.

Report title:
YEAR-TO-DATE BUDGET REPORT

Includes accounts exceeding 0% of budget.
 Print totals only: N
 Print Full or Short description: F
 Print full GL account: N
 Format type: 1
 Double space: N
 Suppress zero bal accts: Y
 Include requisition amount: N
 Print Revenues-Version headings: N
 Print revenue as credit: Y
 Print revenue budgets as zero: N
 Include Fund Balance: N
 Print journal detail: N
 From Yr/Per: 2020/ 1
 To Yr/Per: 2020/13
 Include budget entries: Y
 Incl encumb/liq entries: Y
 Sort by JE # or PO #: J
 Detail format option: 1
 Include additional JE comments: N
 Multiyear view: D
 Amounts/totals exceed 999 million dollars: N

Year/Period: 2020/99
 Print MTD Version: N
 Roll projects to object: N
 Carry forward code: 1
