VOTE to APPROVE CARRIED unanimously

OLD BUSINESS CLOSED at 7:21 pm

Commissioner Csernica recused himself from Application 22-06. He is a neighbor of the property.

NEW BUSINESS OPENED at 7:21 pm

Application 22-06	Bridgeport Roman Catholic Diocesan Corp.	Permit approval for driveway with associated drainage & subsurface detention system. Landscape buffers, tree planting and previously placed fill within a regulated area at 1056 Daniels Farm Road.
-------------------	---	--

Jason Edwards of J Edwards & Associates LLC provided an overview of the proposed project. The project includes cleaning up the fill, creating a new burial area, constructing a new driveway, leveling off fill pile, adding catch basins to collect stormwater. The designed drainage meets the town’s requirements. There is a sediment and erosion control plan and a beefed up planting plan. An environmental report concluded that there will be no significant impact. The existing fill will be used to spread around to flatten and feather out. The IWWC Agent asked what the plan for stockpiling is moving forward. Mr. Edwards said the plan is to move it offsite. The Agent requested that the erosion controls either have an additional row of silt fence and/or the addition of hay bales. It was requested that the applicant look into the type of fertilizer that will be used. The waterways, clear woodland limits, wetlands flagging and cut-fill calcs should be depicted on the plans. The IWWC Agent suggested a site monitor be a condition of approval. The Commission requested several items to be staked out for the site walk.

NEW BUSINESS CLOSED at 7:48 pm
