## Long Hill Green Improvements

Work has begun to create a right-hand turn lane on Whitney Avenue onto Main Street in Trumbull. This is the first public improvement project of five planned for the area. Work is expected to continue for approximately four weeks.

The Town of Trumbull has secured nearly \$1 million in grant funding to support efforts in the area. A detailed plan for the area was developed with the input of residents and businesses. The plan is guiding improvements to the area. Over the course of the next year and a half, we will see improvements in safety, traffic, sidewalks, green space in the Long Hill Green Village area.

First Selectman Vicki Tesoro states, "I am pleased to see the work has begun. The Long Hill Green Village improvements continues to be a priority for my administration. We are committed to safe and balanced development while maintaining open communication with our residents and businesses.

Anyone seeking more information on this project can contact Rina Bakalar, Economic and Community Development Director at [rbakalar@trumbull-ct.gov](mailto:rbakalar@trumbull-ct.gov) or Rob Librandi, Town Planner at [rlibrandi@trumbull-ct.gov](mailto:rlibrandi@trumbull-ct.gov) or William Maurer, Town Engineer at [wmaurer@trumbull-ct.gov](mailto:wmaurer@trumbull-ct.gov).
