Will remove the (2) brick columns that currently hold existing sign and replace with (2) 6"x6" powder coated posts. The new sign will be less of a footprint than the old one. Will also replace the (2) Enter & Exit signs to match the main sign for the church. Main sign will be 4' h x 5' w and the Enter and Exit signs will be 2' h x 3' w with 4" x 4" powder coated posts. All new signs are double sided carved PVC material with powder coated posts. Looking for a quick turn around on the approval process as the Pastor is levaing in January and this is a project he started. Had a meeting with Rob in Planning & Zoning and he did not see an issue with the request. Truly appreciate your help in this matter and if you have any questions, please give me a call.
