Â In 2017 I applied and received permission to remove and rebuild my garage with a larger structure - I am renewing that application with a slightly smaller structure with a different footprint.. I will be replacing the existing 23ft high garage (which is falling over) with a 19'6" high garage. The existing footprint of the structure is 22x30. I was approved for 30x30 replacement in 2017 but because of rising costs will be replacing it with a single story structure 28x36. The project includes demolition of the existing, pouring a new supporting foundation/pad. connecting water to it and retiring a new electric panel. At the same time I will replace my existing shed with a 12x20 shed (the pad and build and wiring to be done by me). I have all the pre-demo inspection from the previous successful application.
