CE-26-14	Commercial Electrical Permit	alan Owen	5065 MAIN STREET, Unit #105 T MOBILE, TRUMBULL, CT 06611	2/18/2026	14000		Installation and decommissioning of the systems will be as follows:Prewire: Install cable to each of the new camera locations. This is usually performed as wire installation only; however, installation of devices canbe performed simultaneously w/wire if decommissioning of the existing cameras and cable is performed afterwards. If necessary, the InstallCoordinators will set up the date to return and install devices.JCI will perform the following:Head End and device installation: See drawing for device location and additional informationNOTE: If NVR is being replaced see special shipping instructions? Re-use the existing Verint head end for Stores which have 16 cameras or less.? Add additional 4TB of storage if the NVR is new enough to accept additional drive and the store has more than 16 cameras. The additional drive isto be installed to bring total storage to 8TB Raid 1 (NOT A REPLACEMENT).? Replace the NVR with a Verint E400 if the original unit is too old to accept additional storage, the store has more than 16 cameras, and less than24 cameras.? Replace the NVR with a Verint E300 and additional 4TB storage if the original unit is too old to accept additional storage and the store has morethan 24 cameras. The additional drive is to be installed to bring total storage to 8TB Raid 1 (NOT A REPLACEMENT).? Install, or replace the existing POE switch(s) with, a new 24 port POE switch if current POE switch is outdated, obsolete, or too small. This doesnot apply for stores which will have a Verint E400 unit.? Clean both BOH and ..... SEE ATTACHED SOW.....	ALAN L OWEN
