Trumbull Library

Access newspapers including:
ctpost The Trumbull Times

Start at **www.trumbull-ct.gov/Library** and click on the *Research Center* button.

Scroll down to the *Newspapers* section. From here, you can access individual newspapers as well as newspaper collections, which include articles from many different publications. Just click on one of the titles, and if you're prompted for a number, then enter the 14-digit barcode number from the back of your Trumbull Library card.

Individual newspapers:

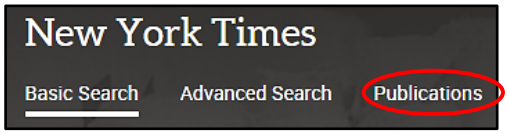

Christian Science Monitor
*Connecticut Post**
Los Angeles Times
New York Times
*Trumbull Times**
Wall Street Journal
Washington Post

*See the back of this document for more information on viewing *The Trumbull Times* and *The Connecticut Post*.

On each newspaper page, you can type search words in the box and hit *Enter* to see the results. On the results page, you'll see more options either at the top or on the left sidebar, allowing you to limit the results by date.

Some newspapers have an additional option of browsing articles by issue or date, and will either display a dropdown menu or a list of dates. If the newspaper has multiple editions/versions, click the *Publications* link first, then click on a version, then select a date from the dropdown menu.

Newspaper collections:

America's News (from NewsBank)
Articles and transcripts from over 4,000 newspapers, wire services, and TV/radio news. American sources only.

MasterFile Premier (from EBSCOhost)
Articles from over 1,500 newspapers, magazines, and scholarly journals. Also includes biographies, reference books and primary source documents. Both American and international sources.

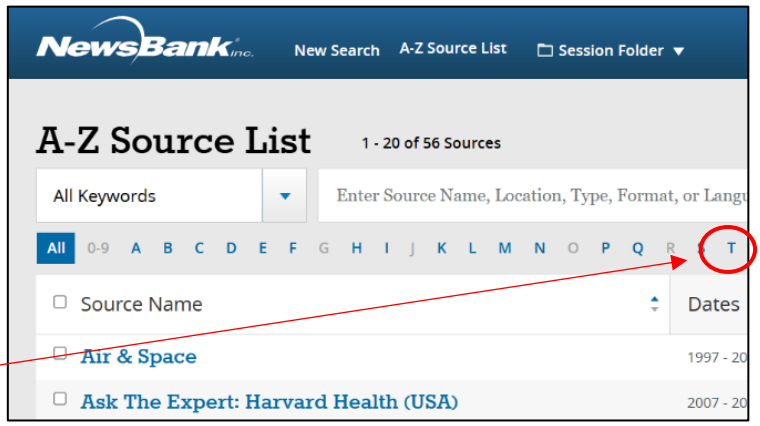

Newspaper Source Plus (from EBSCOhost)
Articles from over 1,000 newspapers and wire services, and over 1 million TV/radio news transcripts. Both American and international Sources.

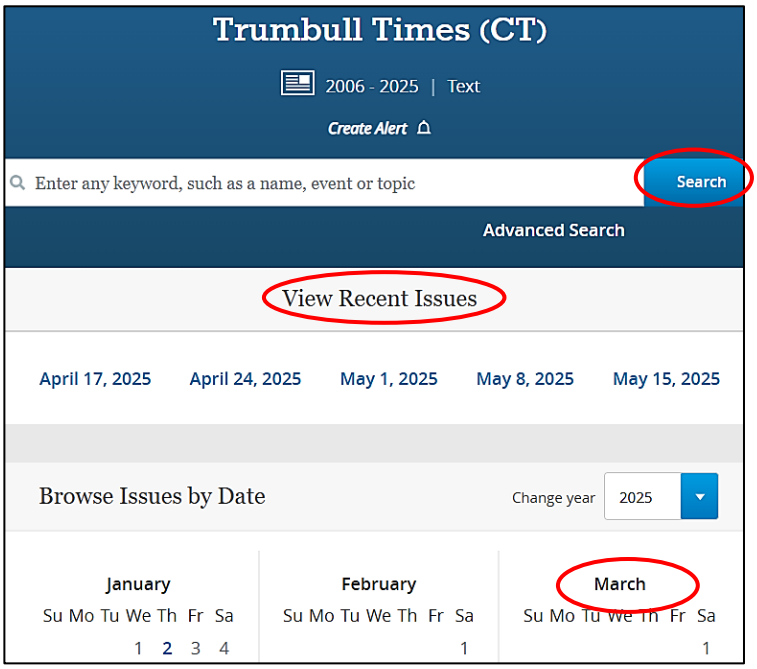

On each collection page, you can type search words in the box and hit *Enter* to see the results. On the results page, you will see additional options either at the top or on the left sidebar, allowing you to limit the results by date or source type.
