See discussion of agenda items 4, 5, and 6 relating to the Senior/Community Center including the amended resolution passed by the Town Council directing the Community Facilities Building Committee to provide 3 additional options of the Senior/Community Center. The amended resolution reads as follows:

Three alternative design options by July 2025, as examples, a 20,000 square foot building or a 10% reduction. Those are meant as examples. Each alternative should include detailed cost estimates, a comprehensive breakdown of construction costs, including hard costs, (example, materials and labor soft costs), (example, design fees and permits), as well as projecting operating and maintenance expenses. Cost benefit analysis and evaluation of each design's benefits relative to cost, ensuring alignment with community needs and financial sustainability, comparative data, information from other municipalities that have recently constructed or renovated senior centers, providing context and benchmarks for our project. Tax impact to the citizens of Trumbull.
